Nothing in this document should be construed as investment advice.

Subscriptions to units of CAPM Unit Fund can only be made on the basis of the prospectus. The value of units of CAPM Unit Fund and income received from it can go down as well as up, and investors may not get back the full amount invested. Past performance is not an indicator or a guarantee of future performance.

An investment in CAPM Unit Fund entails risks, which are described in CAPM Unit Fund's prospectus. Special risks may be associated with CAPM Unit Fund investment in certain types of securities, asset classes, sectors, markets, currencies or countries.

Please contact CAPM (Capital & Asset Portfolio Management) Company Limited if you require any further information about the fund.

Top Holdings represent the largest holdings of the fund as of the date indicated. These securities do not represent all of the securities purchased, sold or recommended for advisory clients, and the reader should not assume that investment in the securities listed was or will be profitable.

Risk Factors

Because the Fund invests primarily in equities of companies across sectors, it may experience greater volatility than a more diversified fund. Securities risks include economic and political uncertainties. Investments in capital market instruments are subject to a higher degree of risk. The Fund may be subject to a variety of risks in addition to those described herein. Please read the Prospectus for a full discussion of risks.
